RAILWAY IMPROVEMENTS
In Japan Coming Year There Will Be Expended FIFTY MILLION DOLLARS.

Conditions Are So Encouraging In That Country the Government Is to Soon Expend Enormous Amounts in the Way of Betterments.

Tokio, Oct. 14.—The approaching session of the diet does not promise to be of more than average interest to the people of Japan. The Progressives, led by Count Okuma, are in the minority, but the government will probably avoid all issues where likely to arouse serious controversies. It is now fully understood that the budget will not propose to increase taxation and the amounts required to finance the ambitious plans for internal improvements will be provided by means of authorized, but hitherto unissued international loans, which, it is understood, the banks are ready to accept. The Russian war prisoners' fund also will be devoted to the same purpose. It is now evident that the opinion is preparing to make the question of the future financial policy an issue in the campaign of 1908, and the news-

papers are discussing the subject quite freely, claiming that increased taxation ultimately is unavoidable, especially when loans are exhausted and there is no further extraordinary income forthcoming. Finance Minister Yoshire Sakatani is quite optimistic, and points out that the present conditions are excellent considering the tremendous expense of the war. While necessarily a healthy reaction followed the recent boom, industrial returns show that conditions are so encouraging that the government is preparing to expend enormous sums in internal improvements, while the army and navy expenses are decreasing. Railroad improvements alone in the course of the coming year will, it is estimated, reach \$50,000,000.

SMOKE SUFFOCATES SIX
Father and Five Daughters Are the Victims.

MOTHER AND SONS ESCAPE

While Endeavoring to Save His Dear Ones During the Destruction of the Family Residence Solomon Frank and His Girls Lose Their Lives.

Gloversville, N. Y., Oct. 14.—Tis members of the family of Solomon Frank, a glove cutter, the father of five daughters, were suffocated by smoke when their home was burned early Sunday. The dead are: Solomon Frank, aged forty; Sarah, twenty; Dora, nineteen; Rosa, seventeen; Minnie, twelve; Mary, ten. The father lost his life in endeavoring to save his children, following the discovery of the flames by the mother, who, with her two small sons, made her escape.

VOTED TO CONTINUE.

Several Locals of Commercial Telegraphers' Union So Decided.

New York, Oct. 14.—The New York local of the Commercial Telegraphers' union, at a meeting Sunday, voted unanimously to continue the strike against the Western Union and Postal Telegraph companies. The vote was taken upon the suggestion of President Small, who sent messages to subordinate officers pointing out the inability of the general assembly to further finance the strike, and recommended that locals in the various cities vote upon the advisability of the men returning to work. The meeting was characterized by bitter exchanges between President Small and other speakers. The latter charged the national leader with inconsistency in first claiming that the strike would be successfully financed and admitting that the general assembly was without funds, and with having conducted the fight in a half-hearted, dilatory way. Small tried to explain his position, but was frequently interrupted by hisses. When he suddenly left the hall in the midst of the speech-making, cries of "resign" followed him. Sunday night Small issued a statement in which he said he was willing to continue the strike if the men insisted. Locals of Chicago, Baltimore, New Orleans and Atlanta voted to continue the strike, also Memphis and Montgomery.

Small Suspended.

Chicago, Oct. 14.—The executive board of the Commercial Telegraphers' union notified President Small that he had been suspended.

MISSION OF GERONIMO.

Will Discuss Matters of Vital Concern to Fullbloods.

Tulsa, I. T., Oct. 14.—Geronimo, the famous Apache, a prisoner of war, accompanied by his eighth wife and his daughter, passed through Tulsa en route to Collinsville, where he is to be the guest of honor at the last Indian war dance and powwow. The old warrior looked tired and worn, but through his interpreter said it was trouble on his mind that made him appear weary. Discussing the subject of his visit and the probable effect it might have, Geronimo said: "The celebration at Collinsville is a religious rite, and not a bloodthirsty affair. I will discuss matters of vital concern affecting the fullbloods in the new state and their spiritual welfare. The Spirit Father in the clouds has sent a message to all Indians, and I will deliver it to them while the dance goes on. I have made peace with my Master, and my theme is to lead my people safely across the broad field of peace to eternal happiness. I am no longer an old Apache warrior, who killed and scalped men merely for pleasure, but am old, full of sorrow and regret."

FARMERS TO MEET.

It Is Expected There Will Be Three Thousand at Oklahoma City.

Three thousand delegates are expected to be present, a large majority of whom will come from Oklahoma. Many prominent men will address the convention, among them Governor Cummins of Iowa, Governor Broward of Florida and Governor Frantz of Oklahoma.

WAS AN A. AND M. VICTORY!

The football game at Dallas Saturday, the result of which was given in the Eagle Sunday morning, was a victory for the A. and M., although neither side scored officially. A. and M. made a touchdown after six minutes of play, but was "counted out" on some sort of a technicality, and was more severely penalized more than once than the conditions seemed to warrant. According to ardent friends of the University who witnessed the game, the Farmers had the best of it throughout.

The A. and M. team was royally entertained while in Dallas by the A. and M. club of that city, being given a tallyho ride over the city and a box party at the Dallas opera house.

Regarding the proposed game at Houston Nov. 4, Dean Chas. Puryear, who accompanied the team to Dallas, says it is up to the University. The A. and M. boys will glad to meet them in that city on the date named.

The friends of the A. and M. team are much pleased with the showing they made at Dallas, and believe they will win out in the next contest.

AIDING A. & M. COLLEGE AIDS TEXAS

The immensity of Texas is a fruitful source of inspiration to natives, and the value and multiplicity of its resources are unfailing and pardonable temptations to a boastful spirit that delights in the pageantry of parade. But when the practical Texan who knows that an unemployed talent is a rebuke to its owner thinks of these things, in connection with the things that make a commonwealth truly great, he cannot escape a feeling of humiliation. In every age and with every state, or nation, that has attained to high and enduring civilization institutions of learning have constituted at once the bulwarks of government and the natal places of human progress. We have in mind now a Texas institution which with all our proud boast of incomparable domain and resources is utterly unable to respond to the hopes and ambitions of Texas youth. That institution

is the Agricultural and Mechanical College—an institution whose value, measured by the cold standard of dollars, no man can estimate. At this moment it is housing some of its student body in tents. Why? Because legislatures, resisting the pleas of its managerial authorities, have declined to make adequate appropriations for its needs and growth. If this were a rich man's school—although we know of none such anywhere that are not of good to social development—some excuse might be forthcoming for the state's neglect of it. But it is not a rich man's school; it is pre-eminently a poor boys' school; at least a school in which the Texas boy is equipped for some useful occupation. Its graduates go out to the farm, the orchard, the truck patch, the ranch and the machine shop, and they do more to the development of the state than any class of students in the country.—Austin Current Issue.

JAIL WAS LEFT EMPTY.

On Sunday Cherry Burl, Louis Samuels and Ed Parker, three negro convicts at the recent term of the Brazos county district court, were taken to Allen farm, leaving the doors of the Brazos county jail ajar.

DEATH OF BUNYAN LLOYD.

Mr. Bunyan Lloyd, about twenty or twenty-one years old, and the son of Mr. D. B. Lloyd of the Reliance community, died at the family home yesterday morning about nine o'clock. It is said that the young man was apparently as well as usual early yesterday morning, and that his illness came suddenly upon him and death followed rapidly, and notwithstanding efforts to give him relief. He was recently kicked by a horse, and while it was thought he had recovered from the injury, it very probably hastened his death. The young man was a member of the Baptist church and held in high esteem.

ANOTHER RURAL ROUTE.

Postmaster J. Allen Myers has received notification that free rural mail delivery route No. 6 will be established in Brazos county Nov. 16. The route runs from Bryan via Boonville and Steep Hollow, crossing Wixon Creek near the farm of T. P. Hall, thence through the Reliance community to the McRea bridge road and back to Bryan. The carrier's salary will be \$900 per year. No appointment has yet been made. The route is an important one and will be a great convenience. The Eagle congratulates those who have labored so earnestly to secure it on their success.

A SPLENDID SERVICE.

A very large congregation gathered for the 11 o'clock service Sunday morning at the Methodist church. An excellent musical program was rendered by the choir in connection with the service. Prof. Case of Sherman and Miss Long presiding at the organ. Prof. Case also sang a solo. Dr. Betts, the pastor, preached a magnificent sermon on the subject of "Music in its Relation to Worship." The discourse drew upon literature, history, mythology and scripture and was replete with gems of thought most eloquently expressed.

LARGE SUM TAKEN.

Kirby Lumber Company Loses Much Money.

Beaumont, Oct. 14.—The safe in the commissary of the Kirby Lumber company at Silsbee was robbed of between \$7,000 and \$8,000. The money taken was to have been used to pay off the woods crew of the woods crew of the Kirby Lumber company at Silsbee. T. M. Hunter, the paymaster of the company, passed through here Saturday en route to the various mills in east Texas on his monthly mission to pay off the men. He paid off the employees at Silsbee Saturday, and that night deposited in the commissary safe his satchel, containing about \$8,000, tram road leading from Silsbee into the woods to pay the men employed in cutting timber. Being Saturday night, and the bank at Silsbee not being open, due to the fact that he expected to leave early in the morning was the reason for depositing the money in the commissary safe. The burglary was not discovered until Sunday morning, when Mr. Hunter went to get the money. It was found that the safe had been opened and the satchel containing the money was missing. The silver and small change was not disturbed.

The safe was opened by working the combination, and the safe was again locked after the money was taken, and was found closed and locked Sunday morning, and readily opened when the combination was applied, showing no damage to the combination.

An alarm was given as soon as the burglary was discovered, and every preparation was made for a systematic search for the thieves.

Failed to Produce Papers.

Mobile, Oct. 14.—A fine of \$5,000 has been imposed on the Italian bark Rosa T. for failure to produce entry papers into the port of Mobile. The vessel arrived here on Friday last from Irapati, Italy, with a cargo of salt. Captain Salvo, the master has appealed to the treasury department at Washington.

BRYAN, TEXAS, OCT 15, 1907

Roosevelt's bear hunt is like his political career—nothing but noise.

There is an inverse ratio between the price of beer and the size of the schooner.

If Governor Campbell were a trifle less intense he would be a better governor.

The cotton farmer toils and the cotton manufacturer spins, but the middleman toils not neither does he spin.

Those Louisiana people who are seeing airships ought to be more particular about the brand of their whiskey.

There was crowing and cackling when Secretary Taft arrived at the town where the Shanghai rooster is indigenous.

Inexhaustible quarries of meersch-chaum have been discovered in New Mexico. A smoker can soon get a pipe that is not a mere sham.

A Colorado man married his deceased wife's mother and a New Jersey man has married his grandfather's widow. England can't beat that.

A La Grange man has been fined \$500 and sentenced to jail for a year under the new law, making it a criminal offense to fail to provide for one's family.

There are a few notoriety seekers calling themselves confederate veterans and democrats who are shouting for Roosevelt. They are freaks—that's all.

Grant's army at Vicksburg made so much noise, that the Eagle paragon can hear it yet; but an old negro declares that it was nothing to the racket Roosevelt and his hunters have made.

The humorous Houston Post keeps popping its paper pellets at Marvelous Manhattan, Wonderful Washington, Regal Richmond, Chivalrous Charleston, Angelic Atlanta and Nectareous Nashville.

It is announced that at the Beaumont poultry show none but the Plymouth Rocks will be barred, and further, that the barred Rock will be entered all right.—Beaumont Enterprise.

A paradoxical pun, as it were.

Mars is an older planet than the earth, and it is presumable that the inhabitants are more highly enlightened than the people of the earth. Wireless telegraphy seems to offer the only hope of intercommunication between the two worlds.

A Florida man has been jailed for writing poetry. If the same law prevailed in Texas the jail walls would have to be built on the state boundaries. Nobody can help being a poet in such a country and climate.

In Norway a man has to show his vaccination receipt before he can vote. It would be a good thing for most Texas towns if the voter were required to exhibit a certificate that there are no breeding places of mosquitoes on his premises.

The Bryan Eagle in order to meet the demands of a Greater Bryan for a strictly first-class and up-to-date daily paper, has responded by increasing its facilities, having recently purchased a new Linotype machine and a new press. The Eagle is already a pretty good daily, and when it gets this new machinery installed we dare say Bryan will be prouder than ever of it.—Houston Post.

Governor Campbell is not responsible for requiring applicants for a Confederate pension to take

the "pauper oath." There is no authority in the constitution for granting state aid to any but indigent Confederate soldiers, and Governor Campbell knows, the constitution of Texas is not made of rubber.

There are a few musical critics who are offended because the thousands who are not critics whistle or sing the airs and songs that the people love instead of Wagner's or Chopin's classics. About the same number of self-appointed "leaders" are disgusted with the democratic masses because they love and trust Bryan.

In 1859 the newspapers and the people of Virginia had a good deal of fun with a youthful sprig in search of notoriety who came "the hull way from Boston" to tender his legal services to John Brown. The newspapers and the people of Texas are promised a similar farce-comedy with San Antonio as the stage and a certain minister of the gospel from a distant Northern city as the star actor.

"Mr. Bryan thinks a national incorporation act would be a tremendous blunder. It is now up to Mr. Bryan to point out the essential differences between a national incorporation and a national licensing act."—Galveston News.—No need to bother a statesman with a simple thing like that; ask some intelligent school boy. Among other points of difference he will tell you that it is much easier to cancel a license than it is to dissolve a corporation.

Every individual should pay his share of the expense of government and the same is true of every corporation, institution and interest that enjoys the protection of the government. Discrimination in taxation is manifestly unjust. While the freeholders and the owners of homesteads have a right to demand that the railroads and other corporations contribute their

proportionate share to the public revenues they have no right, and there is no reason to believe that they have the wish to be excused from performing their own duty. The people of Texas are neither so selfish nor so lacking in self-respect as to favor exempting homesteads from taxation.

EDITOR REEVES ABROAD.

We fell asleep in a chair at Grand Junction last Wednesday night on our way home from Memphis in our usual soaked condition, and let the train leave us. The hotel clerk told us to go up stairs and take the room on the right side of the hall with a lamp turned low. He said he wuz crowded and we wud hev to double up wth a man. We went up and pulled off our things and went to bed without awaking our bed-fellow, who was sleeping sound with a sheet over his head to keep off the muskeeters. Before we fell into the arms of morphia we seen a young lady and a young gent come in and set down by the window. At first they talked so low we could not hear what they sed. Finally we heard the little miss say: "Wallie, ain't you ashamed to try to kiss me right her whar we air a-settin' up with a dead person?" We felt awful curoeus. We slowly reached over and touched the nose of the man we wuz in bed wrth, and seen at a glance he was dead, alright, and it wuz a race to a finish to vixt us three for the bottom of the steps. It is useless to say we wuz first to pass the post by 2 lengths. We didn't skeer that couple any worse than that corpse skeered us. We walked through the country to Boliver, and wired for our clothes by express.—Har-deman (Ky.), Free Press.

Try This For Catarrh.

Free tests are now being supplied by mail to all Catarrh sufferers. There is no expense—no obligation whatever. Dr. Shoop is combining Oil of Eucalyptus, Thymol, Menthol, Oil of Wintergreen, etc., and is incorporating these ingredients into a pure, snow-white cream-like Imported Petrolatum. This Creation—Dr. Shoop's Catarrh Remedy—gives immediate and lasting relief to catarrh of the nose and throat. That all may first test it free, these trial boxes are being mailed without charge, simply to encourage these tests and thus fully demonstrate, beyond doubt, the value of this combination. If Catarrh has extended down to the stomach or bowels, then Dr. Shoop's Restorative must also be used internally if a complete cure is to be expected. Otherwise the Dr. Shoop's Catarrh Remedy will alone be entirely sufficient. Write Dr. Shoop, Racine, Wis. for sample and book. Sold by Druggists everywhere.

TAFT AT HONGKONG.

Secretary and Wife Received Warm Welcome at That City.

Hongkong, Oct. 12.—The steamer Minnesota with Secretary of War Taft and wife on board came into the harbor Saturday. Mr. and Mrs. Taft attended a reception at the consulate in the afternoon and dined with the governor at night. During the sea trip here Secretary Taft spent much of his time in working on his speech for the opening of Philippine assembly.

Weak Kidneys

Weak Kidneys, surely point to weak Kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

EBERS MORTALLY SHOT.

Wealthy Citizen of San Antonio Was Wounded Five Times.

San Antonio, Oct. 14.—Paul Ebers, one of the wealthiest citizens of this city, was found in a dying condition in a clump of bushes in front of the residence of Mrs. Clarence Barbe Ford. He was shot five times. Paul Barbe, a brother of Mrs. Ford, telephoned the police he desired to surrender. He was placed under arrest. Ebers said Barbe had shot him.

Ebers was recently divorced from his wife, who is still a resident of this city. The divorce case was a pathetic one. His wife was a young girl, reared by Eber's mother in Germany, and after he came to America she followed him and they were married at Galveston. They lived together only a few years.

The residence of Mrs. Ford is one of the most elegant in San Antonio. She is a member of a leading family. Her mother recently moved to Louisiana. Paul, her brother, and a sister are visiting Mrs. Ford.

Ebers is the principal owner of the Art store and also possesses three west Texas ranches. He was in the German army, being an officer of high rank.

The cause of the shooting is unknown.

THRILLING SIGHT.

Headon Collision of Two Locomotives Was a Success.

Fort Worth, Oct. 14.—Over 20,000 people saw the prearranged headon collision of two locomotives at the fair grounds Saturday. The engines started at either end of a quarter mile straight track and came together with a crash in front of the grand stand. Both engines were of the old abandoned type, and not capable of any very high rate of speed. They were under full steam, however, when they came together, and there was enough of realism about the mimic railway catastrophe to excite the crowd.

After the locomotives had locked together in a death grip an immense cloud of smoke and escaping steam rolled up from the site, obscuring the wreckage. Small pieces of iron flew for a short distance in several directions, but as the crowd was some 500 feet away, no one was injured. The engineers jumped in time to avoid the crash. The whistle of one of the locomotives, which had been left open, blew for thirty minutes after the crash came, and the sound emanating from the dense mass of smoke and steam and dust produced a wierd effect.

SLAIN SMOKING.

Negro Who Did the Deed Also Numbered With the Dead.

Texarkana, Oct. 14.—While seated on his front porch Sunday with his feet propped up, E. M. Sumner, a white man, was shot and instantly killed by Monroe Ballard, a negro preacher. Two shots were fired, both striking vital spots.

Ballard barricaded himself in his home, and when the officers and crowd of citizens went to arrest him he opened fire on them.

The officers returned the fire and the negro fell, riddled with bullets, and died an hour later. The two dead men resided in adjoining houses. Ballard became angered because Sumner had persuaded the landlord to order him to vacate because he was a negro.

TO TOUR TEXAS.

Founder of Baraca Movement Visits State In November.

Dallas, Oct. 14.—Next month Marshall A. Hudson, originator of the world-wide Baraca movement, will make a tour of Texas. He will be accompanied by W. N. Wiggins, president of the Texas Sunday School association.

With regard to the Baraca movement, Samuel M. Dooley, state secretary of the organization, says:

"The first Baraca class was organized at Syracuse, N. Y., in 1890, by Mr. Hudson, an alert, progressive business man, and a valiant Christian soldier. Though the organization was not expected to reach beyond its own church, it soon spread through the city, the state and the civilized world.

"In Texas there are many classes, and more are being organized. "The purpose of the organization is best stated by its national platform: 'Young men at work for young men, all standing by the Bible and the Bible school.'

"Workers of all Protestant creeds are studying Baraca methods and organizing Baraca classes. The world-wide Baraca convention of 1908 will be held at Cincinnati, and we hope to bring the convention of 1909 to Texas."

GOES TO WASHINGTON.

Attorney General Will Represent Texas in the Baldwin Case.

Austin, Oct. 14.—Attorney General Davidson will represent the state at Washington in the E. E. Baldwin case against Texas, relating to the quarantine reservation on Galveston island. The state was successful in this litigation in all state courts and an appeal was taken to the United States supreme court by Federal authorities.

The case of the state against W. E. Hughes of Denver will come up for trial in the Harrison county district court Nov. 12. This suit involves the title to a portion of the Adams survey on Caddo lake on which application to purchase school lands has been filed. Hughes filed suit in the Federal court in Jefferson county to prevent the land commissioner from asking sale applied for and to try title to land. Since the state filed suit in the state courts Hughes has agreed to test the issue in that court and the Federal hearing has been deferred.

According to the Journal of Commerce fire losses in Texas for September amounted to \$915,000. None of the other southern states suffered from fire losses as did Texas for that month.

WILL ABANDON LINES.

Brooklyn Ferry Company Has Given Notice to This Effect.

New York, Oct. 14.—The Brooklyn Ferry company, which operates seven miles of boats across the East river from Roosevelt street to Forty-second street, has given public notice that it is to abandon its lines in the future. The company has a capital stock and bonds amounting to \$13,000,000 outstanding and went into the hands of a receiver a year ago, shortly after defaulting on the interest due on its bonds. The property was offered to the city some time ago for \$12,000,000, but the city refused to buy.

The lines of the Brooklyn Ferry company are in the zone drained by the Williamsburg bridge and since that structure has been opened for traffic the income of the ferry company has decreased to such an extent that it could not stand the strain. Its suspension, however, will cause hardships to thousands who will use the boats in crossing the river and there is, therefore, a possibility that the city may decide to operate several of the lines for their benefit. Municipal ownership of ferry lines is no new thing in the city, it having in the last few years purchased two lines which it is now operating.

DOG MEAT FOR MUTTON.

Negro Endeavors to Palm The Canine Flesh For Sheep.

Greenville, S. C., Oct. 14.—Police and health authorities of Greenville are searching for a negro who was discovered near the Leonard street slaughter pen dressing the carcass of a dog with the evident intention of selling it for mutton on the Greenville market.

Health Officer Whitmire is now in possession of the dog's hide, which shows the animal to be of the New Foundland variety. When the negro was discovered at his work he quickly disappeared in the woods, leaving the hide on the ground and the dog's carcass suspended from the wooden frame used by butchers.

SUGAR CANE INDUSTRY.

WILL NOT MOVE.

President Decides to Continue at Present Camp.

Stamboul, La., Oct. 14.—The whole countryside turned out Sunday in expectation of seeing the president take his departure from Stamboul for the south, but he decided to remain.

There were general expressions of satisfaction, however, over his reconsideration of his determination to move to Tensas parish, for, now that the change is not to be made, Stamboul confesses candidly that she would have been much chagrined to have her distinguished visitor go away with an empty bag before the time originally fixed.

General confidence in his success in the new camp on Bear lake continues buoyant, and the reports from there are uniformly favorable. Indeed, it is stated that a number of fresh trails were discovered, and that upon one occasion the party came upon a good sized bear, but that on account of the absence of dogs he made his escape. Many of the dogs are reported to be badly maimed, and an effort is being made to replace them with fresh animals.

There is no doubt of the presence of game now, but it is very shy, and may disappear in the presence of the hunters, as it did from the Monticello camp.

The order for the special train was cancelled, but it will be renewed if the president wishes to go south. The Tensas parish people are reported as much disappointed over the failure of the president to carry out his programme for a visit to their section.

Secretary Latta went out to camp Sunday.

He wrote a letter to the young woman ardently expressing his love, but she did not respond. Soon afterward he died and when his will was opened it was found his entire fortune had been left to the lady, whom he had never seen. Rev. Dr. Aked Not Dispenser of Rockefeller's Millions.

New York, Oct. 14.—Dr. C. F. Aked, pastor of the Fifth Avenue Baptist church, wants it known that he is not the almoner of John D. Rockefeller. Some one here recently cabled a London paper the erroneous statement that Dr. Aked had been retained to disperse the fortune of John D. Rockefeller. Then Dr. Aked's troubles began. "From all over the world, and especially England," said the minister, "I received no fewer than 3,000 begging letters since that ridiculous article was printed in London. I did nothing for a time but open my mail. Then I appealed to the postal authorities as I simply had to do something to stop the stream of letters."

Dr. Aked wishes it understood he came here from London to preach the gospel and not dispense any one's millions.

COCKTAIL INCIDENT.

Blame For the Happening Is Now Placed Upon a Lady.

Chicago, Oct. 14.—The Interior, the Chicago organ of the Presbyterian church, in its last issue explains the cocktail incident at the residence of Vice-President Fairbanks and places the blame for the affair on the shoulders of a woman.

"A lady living near the Fairbanks home and an intimate friend of the family," the Interior says, "was about the house on that day assisting Mrs. Fairbanks."

"In her judgment it was impossible to entertain the president of the United States fittingly without some beverage furnished to give the spread the tone to which she believed he was accustomed, and on her own responsibility she undertook to repair the supposed omission."

"She ordered the cocktails from her husband's club. The club steward prepared them and an auto brought them to the house in great shape."

"The first Mr. Fairbanks knew of the violation of his Methodistism was when he came to the table with his guests. He did not touch the glass at his own plate."

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and shallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend
